# Jms multisite for joomla version 1.3.61 (All Editions)

Adds the Joomla 3.6 definition and compatiblity

## Bundled with Patches definition 1.3.56

- Improve the patch on JPath::find to verify that the virtual path exists. Otherwise, keep the pathinstead of physical path to allow extensions like SCLogin compute correctly the CSS path.

- Add JMS Tools (install) definitions for :
  - AltaUserPoints
  - Ark Editor
  - jHackGuard
  - Map Locations
  - Share For Points
