Jms Multisite for Joomla version 1.3.77 All Editions

- Add joomla 3.10.0 alpha-3 compatibility
- Add **partial** joomla 4.0.0 beta-7 compatibility
- Menu Layout unavailable under J4.0
- Re-installation of an extension in a slave site with the Joomla / Extension Manager => Install is NOT tested and potential patches are NOT present.
- Use the Joomla / Extension Manager => Discover menu instead
- The installation and sharing of an extension from the JMS Tools menu is not verified and certified yet.

Bundled with Patches definition 1.3.70

- Add Joomla 4.0 patch compatibility
- Add JMS Tools (install) definitions for :
  - Chronoform 7
  - J2Store
  - My Maps location
  - OS Membership Pro
