Settings are used to order website quota to allow creating front-end websites using the 'billable' functionalities.

When you want to use the functionality of “billable” front-end websites, it is required to buy quota on www.jms2win.com.
The interface that you can use to buy quota is present in Settings menu.
This menu shows you the current number of “billable” front-end websites that have been created and your current website quota.
The website quota you have already purchased and that is attached to your “jms2win” login. Therefore, you can share your website quota between multiple JMS master installation.
