Jms Multisite for joomla (BASIC edition)

- Add Joomla 3.2.0 Beta 1 compatibility.
  Fix the packaging distribution that had a missing "..../admin/patches/patches_files_j32.zip" file

Jms Multi Sites for joomla (All Edition)

- Fix the saving of the "Parent Site ID" when a slave site from the front-end is updated.
  The original "parent site id" is keept and not rebuilt each time that the front-end is updated.

Bundled with Patches definition 1.3.18
