

Jms multisite for Joomla version 1.3.42

Mainly add the compatibility with Joomla 3.4.0..

Prior version of JMS may crash the Joomla 3.4 when they install the patches 1.3.37 or lower.

In addition, the new Joomla 3.4.0 changed the installation and the name of the manifest file that had cause issue in JMS to apply the correct patches version.

Therefore, it is strongly advised to install JMS 1.3.42 or higher before updating to Joomla 3.4.0

Bundled with Patches definition 1.3.38

- Add patches for compatibility with Joomla 3.4.0
- Add JMS Tools (install) definitions for :
 - JUX Gallery
- Update Joomla 2.5, 3.1, 3.2, 3.3 sharing definition for:
 - EasySocial partial sharing on profile type, group categories, event categories
- Add Joomla 3.4 sharing definition that start with a copy of the J3.3 one
