In this multisites for joomla version we have

- Fixed the copy of the "template folder" when the directory to copy contain symbolic links. In this case, copy the content of each symbolic links into a physical directory.
- Bundled with Patch Definition 1.2.13 that contain

- a patch definition for SermonSpeaker that allow specific configurations for each slave sites;

- Add JMS Tools (install) definitions for :
SermonSpeaker and PrayerCenter, News Pro GK1, Huru Helpdesk
