Joomla 1.6 RC1 compatibility

With the new Joomla 1.6 RC1 it is now possible to remove almost all the patches installed by Jms Multisites and now it is possible to simply adding files to extends Joomla functionlaities or overwrite some of them.

So now, most of the patches consists in adding files to the Joomla 1.6.
Also bundled with Joomla 1.6 RC1 installation directory

New extension compatibilities

It is bundled with the Jms Multisites Patch definition 1.2.51 that adds the definitions for :

- RS Events,
- iJoomla SEO

and also adds the Joomla 1.5 sharing definition for:

- RS Events,
- RS Form
