Can JMS work with Joomloc 1.7 too?
Posted by rezamoghtada - 2011/09/15 17:06

Dear Edwin,
I just got the news about new version of Joomloc (Joomloc Pro 1.7).
Jooloc Pro for Joomla 1.5 can share and works with Jms Multi site very well,
Can new version of Joomloc work with JMS too?
Best Regards
Reza

I never received this version for review.
So I don't know.
Send me the extension in the attachement of an email.
See contact us for the email address
http://www.jms2win.com/en/contact

Dear Edwin,
I contact to Joomloc and they send the component to you,
Hope this new version can work with JMS too,
Best Regards
Reza

Dear Edwin,
I see in list of extension, Joomloc can share in Joomla 1.7,
Thanks for your good news,
Also for our project we need share some another extensions same as:
AdsManager
RSform!Pro
JV-LinkDirectory

All 3 extensions above are available for Joomla 1.7 now and before we share them with joomla 1.5

Can we share them with joomla 1.7 too?

We are so thanks full for your hard work in advanced and also if you like we can send you the extensions for joomla 1.7 version for review.

Best Regards
Reza

See the list of extension where is defined which extension can be shared.
You can also get this list from the JMS Tool menu and click on the help button.
http://www.jms2win.com/en/list-of-extensions?view=extlist&id=269&Itemid=53

If some were shared in earlier version of Joomla, please send us a copy of their new version for Joomla 1.7 for review.
