Hi

I would like to know how to go about upgrading from Version 1.1.3 to Version 1.1.5 due to the fact that we are interested in purchasing the following components.

Articles sharing Version 1.0 for Joomla Multi Sites - is this compatible with Version 1.1.5.

Multi Sites Menu Item for Joomla Multi Sites - Which states that it is only compatible with Version 1.1.5

Is there a cost involved in the upgrade from Version 1.1.3 to Version 1.1.5

Regards

If you have JMS 1.1.3, you can get the latest version 1.1.21 when you go in http://www.jms2win.com/get-latest-version

See also FAQ http://www.jms2win.com/faq#sec-122 that describe the procedure.
