Information about quota

Posted by FH45 - 2009/02/12 13:16

Hello,

We have done some details reading about JMS and it seems to that it would meet our requirements.

We have looked many places for some information about "quota" but only found it brieftly mention in your manual.

I kindly ask you to provide us with the pricing for buying quota.

Thanks

The price is variable and depend on your current quota.
To give you an idea,
- the price start with 15 EUR for 10 websites when your current quota is null,
- 600 EUR to add 1000 website when the current quota is null
- and is 300 EUR to add 1000 websites when your quota was already of 1000 websites.
