Password reset module Posted by adamlevine - 2018/04/12 05:54
Password reset module
When a user chooses the PASSWORD RESET optionthe module that shows the form to input the email address is at the BOTTOM of the main page!
It doesn't open in a page by itself like it used toand users have no reason to KNOW to scroll down the

Is anyone else experiencing this and if so...HOW to fix it?

page to look for the form to enter.

Thanks
