patches

Posted by power2nc - 2009/10/27 04:51

Looking for the Patches to download.... and I have looked everywhere... something I am missing?, can someone direct me?

The patches definition are only available when you click on your JMS "check for updates" menu. There is no place in our website the place where you can download it manually because there is no place in JMS where you could upload it from a local file.

If you want to get the latest version of JMS (including the patches), you can follow the procedure described in the faq http://www.jms2win.com/faq#sec-122
