Patches
Posted by Janz - 2009/11/10 13:44

Hi,
I have bought the component just few minutes ago and Install it straight away.
However I could see that Patches definition version: 1.2.14 (Latest available: 1.2.17)

How could I upgrade them? Since I downloaded just few min. ago, shouldn't be latest already?

I'm really new to this, so sorry ;)
Thanks
