_____

i am having this error after the second page of jomsocial Registration.

URL:
http://173.201.180.40/template/multisites/lasvegas/index.php?option=com_community&view=register&task=registerProfile&Itemid=15

Error:
Fatal error: Class 'DateTime' not found in
/home/localizit/public_html/template/plugins/user/jsmsjoomlausraccount.php  on line 57

try registering a user and see what happens.

Thanks.

I don't know this plugin.
Would you please send us this plugin to understand what it does.

Class error let suppose that is require a compnent or something else that is not present.

Which version of JomSocial are you using ?
The latest that we tested is 1.6.283
