Can anyone advice me on what SEF component to use?

Posted by keuzenkamp - 2010/05/23 20:05

_____

Hi All,

Im am setting up a information portal that uses 1 master, 1 master-slave and about 70 slaves.
Becasue these sites are focused on generating traffic with keywords SEF is very important.

I have bad experiences with practicly all SEF components to be quit honest...

But can anyone give me an advice on which one to choose to use in combi with JMS Multi??
Commerciël or free is not an issue, it has to work.

Thanks for any advices you can give me!! :cheer: :cheer:
