# error while installation.

Posted by chetanmadaan - 2010/06/19 23:39

---

Warning: set_time_limit() : Cannot set time limit in safe mode in /var/www/vhosts/domain.com/subdomains/master/httpdocs/administrator/components/com_multisites/install.multisites.php on line 78

any idea?

As you can see this is a warning because your server does not accept that we try to increase the maximum execution time.

This is just a warning.
I will hide this warning in the next release of JMS Multisites.
