Sub directories? Posted by aclhkaclhk - 2010/08/20 11:12	
I am a newbie to JMS.	
could we use subdirectories for each site?	
eg. www.abc.com/site1 www.abc.com/site2 www.abc.com/site3 www.abc.com/site4	
instead of site1.abc.com, site2.abc.com?
