Tutorials do not load

Posted by Batch1211 - 2010/11/29 19:08

Hi there,

first of all, thank you for the great product.

Your tutorial videos don't load properly. They often stop in the middle and do not restart to load. It's quite a bit frustrating...

How about uploading these videos to youtube and embedding them?

Best wishes,
Alex

Which one ?
Can you give a URL that cause you such problem
