Latest Version?

Posted by sgreii - 2011/02/26 03:17

How do I get the latest version?? Ive gone to my account panel, opened my invoice, clicked "get the latest version" and I get nothing...all it says is this has expired. I've just purchased this on Feb 4th and I'm switching over to Joomla 1.6 do I have to pay for each version? I do not understand. Please advise.

See FAQ for the procedure.
You have a video and also a PDF that show you how to proceed.
