Merge Testimonials? Just a recommendation!

Posted by 8limes - 2011/05/11 21:08

I would like to recommend to merge the testimonials together and have non-testimonials removed. I have seen a question posted in one of the testimonial sections, and I think it should not be there. That would increase the amount of the total testimonials in one section, and give a better impression. After all, this program really rocks, and I doubt like in other topics and categories it is an issue with testimonials, what joomla version is getting used.

Just a recommendation!
