Hello,

I wanted to know which Image Gallery is the best to share between Sites.
I've seen that the Phoca Gallery isn't supported for sharing.
So is there a good alternative to Phoca Gallery which allows me to share the images?

Thanks for your help!

Sorry but I don't know all the Image Gallery extension and which one could be the best.

Based on the list of extension that you have here,
http://www.jms2win.com/en/list-of-extensions?view=extlist&id=269&Itemid=53
I see that the "Simple Image Gallery" that can be shared.

Perhaps this will help you.
