JMS, multisite for joomla - Joomla Multiple Sites and user sharing Generated: 4 September, 2025, 19:57 Pre order questions Posted by Venkko - 2011/10/17 19:40 Hi! Hopefully Jms2win will be the solutions for my needs. Before ordering this I would like to know we things. 1. Will this work with Virtuemart 2? 2. If my master site is made by Joomla 1.5.23 - Can I have slave site that is made by Joomla 1.7? **Thanks** Re: Pre order questions Posted by edwin2win - 2011/10/18 10:38 1) I don't know yet - Didn't have tested the VirtueMart Version 2 yet. 2) NO. The concept of JMS is to share the same Joomla installation (PHP Code). So all the website are using the same joomla and therefore the same version.

Re: Pre order questions Posted by Venkko - 2011/10/18 18:35

Hi!

- 1) I don't know yet Didn't have tested the VirtueMart Version 2 yet.
- How fast can you test it? ;)

Re: Pre order questions Posted by edwin2win - 2011/10/19 18:57

Not fast.

This is in our to do list for several weeks.
