JMS, multisite for joomla - Joomla Multiple Sites and user sharing Generated: 6 December, 2025, 01:53

Using JMS running on localhost Posted by el patron - 2010/02/10 15:01
For testing speed etcwe like testing on our localhost. Is it possible to run JMS with with master/slave sites defined in a localhost environment? Ithanks as always for the community help!

Coolthank you so very very muchjust getting into the extensive manual, which is one of the most detailed I've ever seen for a joomla attachment. Really more documentation that the core itself:)
