i am trying it as per your instructions per our previous disscussion..

but it's not just happening.

Here is the error i am recieving.

Error(1) guery . DB Error: ANY command denied to user 'loclasvg'@'%' for table 'jos users' SQL=CREATE OR REPLACE VIEW lvg_users AS SELECT * FROM `loc1005710480816`.`jos_users` Create User error: Query = , DB Message =

for above: jos_ is the base site tables.

lvg_ is the new site table for which i am trying to replicate.

loc1005710480816 is the main site DB.

loclasvg is the new site DB.

This is a "command denied to user" error that is commented plenty of places in this forum http://www.jms2win.com/forum/search?q=command+denied+to+user
