Components sharing

Posted by vizeurope - 2011/06/06 11:59

Hello,

With the latest version of JMS and joomla 1.6.3 we do not have the possibility to share DB for some components (table are not view but copy) however it's possible with joomla 1.5

AcyMailing
JoomSocial
Zoo

Can you fix that ?

Thanks

We didn't defined the sharing for Joomla 1.6 because we never received the extension for joomla 1.6 to review.
So send us the extension into the attachement of an email that you would like that we review for the sharing under joomla 1.6.

Our email is in the "contact us".
