Problems with AceSef
Posted by KingoftheRoad - 2010/03/12 08:08

_____

Hi Edwin,

I experience some problems with AceSef

1) The joomla/administrator/components/com_acesef/configuration.php seems to be shared by slaves & master.
    All my configuration at slave site seems not effective.

2) I cannot see the screens of URLS in AceSEF.

Original AceSef Screen :

http://www.jms2win.com/images/fbfiles/images/AceSef_Original_800.jpg

JMS AceSef Screen:

http://www.jms2win.com/images/fbfiles/images/acesef_800.jpg

Pls advise.

Many thanks.

Seth

_____

Check that you have installed the JMS patches.

There is one for AceSEF configuration.php file present in their directory.
