Hi. Is iJoomla Surveys compatible with JMS?  
Thx and cheers...

I don't know.  
Send us this extension in attachement of an email.  
See contact us for the email.  
We will review it.

All we can tell you is that we already defined a "iJoomla Ad Agency".  
So perhaps this is possible to do the same with this extension.  
We can not tell you until we have reviewed it.

I will use BreezeForms instead.  
Thanks and cheers..
