JMS, multisite for joomla - Joomla Multiple Sites and user sharing Generated: 24 November, 2025, 23:05

Single signin for subsites in same domain Posted by BCH - 2012/11/13 11:45
hello i have subsites in directories of a same domain how can i configure the plugin plgSystemMultisites_SSIDomains to enable a functionality single sign thank u
Re: Single signin for subsites in same domain Posted by edwin2win - 2012/11/13 21:36
You don't need this plugin to share the session between the websites. You simply have to share the users between the websites.
This is a functionality present in JMS. You can share the users between the websites and also remain logged when you are using subdomains or subdirectories of a same domain (that is your description).
See the tutorial video 16 on how to share the users. http://www.jms2win.com/en/tutorial#jms12x-16
