

RSS Feeds don't work with frontpage

Posted by LeScandaleux.Fr - 2010/01/05 18:57

Hello,

The module mod_syndicate doesn't work with the frontpage when using Articles Sharing.

Parse error: syntax error, unexpected '!' in
/srv/d_lesca2303/www/www.lescandaleuxmag.mobi/htdocs/components/com_multisitescontent/views/fro
ntpage/view.feed.php on line 6

Could somebody help me please ?

Thanks

Syntax error confirmed.

The line 6 effectivelly contain a "..DS." instead of ".DS."

The line 6 should be

'views'.DS.'frontpage'.DS.basename(__FILE__),

The fix is available in the "Article Sharing for JMS" version 1.0.10.

To get the latest version see the FAQ for the procedure.
