RSS Feeds don't work with frontpage Posted by LeScandaleux.Fr - 2010/01/05 18:57
Hello,
The module mod_syndicate doesn't work with the frontpage when using Articles Sharing.
Parse error: syntax error, unexpected '.' in /srv/d_lesca2303/www/www.lescandaleuxmag.mobi/htdocs/components/com_multisitescontent/views/frontpage/view.feed.php on line 6
Could somebody help me please ?
Thanks
Re: RSS Feeds don't work with frontpage Posted by edwin2win - 2010/01/05 20:19
Syntax error confirmed. The line 6 effectivelly contain a "DS." instead of ".DS."
The line 6 should be 'views'.DS.'frontpage'.DS.basename(FILE),
The fix is available in the "Article Sharing for JMS" version 1.0.10. To get the latest version see the FAQ for the procedure. http://www.jms2win.com/faq#sec-122
