Error with Eventlist 1.01

Posted by soucalex - 2010/07/19 02:04

Hello, I have an error message when I want to share Eventlist 1.01 database.
I use joomla 1.5.19 and Eventlist 1,01
thank you for your assistance

Which error message.
Can you give a detailled description and the scenario to reproduce it.

If the is a "command denied to user", you will see plenty of answer on that in the forum.
If this is the case, increate the MySQL user privilege with create view and show view.
