Error writing configuration file

Posted by FH45 - 2010/08/01 06:54

Hello Edwin,

I had the icon coming up on one of my sites in JMS - Site Manager and I did an edit site and saved and got the Error writing configuration file

How can I solve this problem?

Best regards,
FH45

Perhaps you can have a look with a file manage in you cPanel or administratrion tool to provide the access to the file.
Or do a chmod on the file to provide the access.
