Patches Issue Posted by jimesmythe - 2011/04/22 17:22

I can not ever get the define.php and administrator/define.php to install.

Re: Patches Issue Posted by edwin2win - 2011/04/23 13:54

This mean that you are using a Joomla 1.6.2 or higher. If this is the case, get the latest JMS version 1.2.50. See the FAQ for the procedure to get the latest version. http://www.jms2win.com/en/faq/faq-joomla-multi-sites#cat-122
