JMS, multisite for joomla - Joomla Multiple Sites and user sharing Generated: 25 November, 2025, 01:15

Create Sites from the front end joomla 1.7 Posted by bwd - 2011/12/27 17:59
Hello
It looks like there may be a bug with JMS using Joomla 1.7.
Create a menu item for either List slaves, or Create slaves
From my testing it looks like the logged in user needs to be a Super Administrator for the forms to show
The login can be set for either setting Login Required OR Anonymous
