I have the create view user issue on my Cpanel managed server. I've asked the hosting provider to fix it twice but they can't seem to do it.

Is there anything I can do in phpmyadmin to get it working? (I suspect there isn't since I can't alter the user privileges in phpmyadmin but I'm an getting desperate!)

## Re: My host can't seem to fix create view issue Posted by edwin2win - 2012/02/23 13:41

See the tutorial video 0.b slide 35. http://www.jms2win.com/en/tutorial#jms12x-0b

We show how your hosting provider can fix that with the PHP MyAdmin.

This require a MySQL root login.
