Upgrade Option Posted by canadareic - 2012/08/14 01:54

I see we are getting new upgrade.

As long lasting client I should ask are we eligible for upgrade. Considering full 1.3 version.

What about compatibility with other jms2win products?

Thank you

Re: Upgrade Option Posted by edwin2win - 2012/08/15 09:00

For all customers who have purchased JMS 1.2 within the last 12 month, we will provide them a discount coupon to allow buying the new JMS 1.3 at a lower price.

We expect to send an email to the existing customer that have purchased JMS during the last 12 month when we will consider JMS 1.3 as a Release Candidate.

To any person who are in this condition and that would like to upgrade to JMS 1.3, you can send me an email to ask me for a discount code.

Concerning the compatibility with the additional extensions, they should be compatible but we didn't have re-checked them yet.

We currently know that we have a bug in JMS 1.3. beta3 that does not allow runing the "Article Sharing for JMS".

We have fixed it and will be available the next release. (RC or Beta 4)

Re:Upgrade Option Posted by james2581 - 2012/08/15 18:43

If someone buys the 1.3 beta it includes future updates and bug fixes correct?

Re:Upgrade Option Posted by edwin2win - 2012/08/17 11:05

Yes, like the other product, you can get the latest version as explained in the FAQ. http://www.jms2win.com/en/faq/faq-joomla-multi-sites#cat-122

So you can get the latest JMS 1.3.x version and therefore receive the bug fixes.
