

## multisites menu item not working

Posted by donjarleone - 2012/11/03 01:32

---

Trying to access menu item parameter gives:

Fatal error: Cannot redeclare class HTTP2Win in  
/administrator/components/com\_multisitesmenuitem/classes/http.php on line 44

:S

I have cross-check and confirm the potential issue.  
I will create a new release of the Multisites Menu Item that fix that.
