multisites menu item not working Posted by donjarleone - 2012/11/03 01:32
Trying to access menu item parameter gives:
Fatal error: Cannot redeclare class HTTP2Win in /administrator/components/com_multisitesmenuitem/classes/http.php on line 44
:S
Re: multisites menu item not working Posted by edwin2win - 2012/11/06 15:07
l will cross-check
Re: multisites menu item not working Posted by edwin2win - 2012/11/06 16:28
have cross-check and confirm the potential issue. I will create a new release of the Multisites Menu Item that fix that.
