could you tell me the difference between basic, medium and full version of jms multisite 1.3 for joomla.

Re: Difference Betwwen version of JMS Posted by edwin2win - 2014/07/28 11:00

Comparaison can be found at http://www.jms2win.com/multisite13variants

In very brief:

- Basic : just allow creating slave sites from the back-end

- Medium: Add the geo-localisation and browser feature detection

- Full : Add the possibility to create website from the front-end
