Can't Set up multi-site on "replicMasterSubdir"

Posted by rohanhanumante - 2015/06/12 07:40

Hi

I am unable to set up the multi-site on template "replicMasterSubdir". I followed the the steps as suggested by the JMS mutisites. But somewhere i am making wrong things. Can any one Help me out with Step by step configuration to achieve multisite for my application.

Working on Version
==========
Joomla! 2.5.20
VirtueMart 2
JMS Multisite 1.3.46
==========

Thanks,
Rohan

OK but which is the problem.

The "replicMasterSubdir" is a default rule that consists in copying (clone) the master into a subdirectory of your website.

Enter a site ID like "slave1" and select the rule "replicMasterSubdir" and this should create a website into the subdirectory "slave1"
