Is MijoShop i,e http://www.mijosoft.com is supported by JMS. I do see AceShop i.e, http://www.joomace.net/joomla-extensions/aceshop-joomla-shopping-cart is supported by JMS. MijoSoft is just spinoff of ACESHOP.

Currently the "MijoShop", it is not present in our list of extension defined in the JMS Tool menu.
http://www.jms2win.com/en/list-of-extensions?view=extlist&id=269&Itemid=53
If you want that we review an extension, send us the extension in the attachement of an email for review.

See "contact us" for the email address.
When an extension is not defined in the JMS tool menu, this does not mean that you can not install it. In this case, you have to go in the slave site to re-install the extension. The JMS Tool menu can not be used to proceed with the installation from the master website.
