Having Trouble? - Get the Paid Support - ITS GREAT

Posted by james2581 - 2013/02/25 23:25

Here is a video on my thoughts with JMS paid support.

You can view it here : youtu.be/ba3RjbG9Lmw

The paid support was worth every penny. If you are frustrated or if you can not get it to work get the support and everything will come together. I explain the whole process in my video.

I was able to get more done in 3 hours then I have all year. He is the expert and let him setup your configuration before you get users and content and have to redo it and possibly loose users.

Would love to hear others people thoughts on their experience.

James
