Session warning appearing on salve site

Posted by amir00251 - 2013/08/25 17:45

I get below text on site when I browse to slave site.

Is there any way of hiding them or avoiding them. Thank you.

Warning: in_array() expects parameter 2 to be array, string given in /home/.../public_html/includes/multisites_geoloc.php on line 7

Warning: session_start() : Cannot send session cookie - headers already sent by (output started at /home/.../public_html/includes/multisites_geoloc.php:7) in /home/.../public_html/libraries/joomla/session/session.php on line 661

Warning: session_start() : Cannot send session cache limiter - headers already sent (output started at /home/.../public_html/includes/multisites_geoloc.php:7) in /home/.../public_html/libraries/joomla/session/session.php on line 661

I notice the first error and will add a check to avoid such warning that cause the other message. You can avoid that when you change your server PHP.ini error level to avoid displaying the warning message upon screen.

This issue with the warning is removed in the JMS 1.3.16.
See FAQ for the procedure to get the latest version.
