JMS, multisite for joomla - Joomla Multiple Sites and user sharing

Generated: 14 August, 2025, 20:11 :master_db: appearing in search results Posted by iage - 2014/11/28 15:42 Hello, In search-results on our slave-sites, the text ':master db:' appears. Can this be hidden somehow? Kind regards -Stephan Re: :master_db: appearing in search results Posted by edwin2win - 2014/11/30 14:23 I don't know where it appears and the content but you have the Search/Replace plugin that may sometimes helpfull to perform specific task. https://www.jms2win.com/en/component/docman/doc_details/13-search--replace-utility So depending on where it appeards, you can setup the Search/Replace to replace anything in a webpage.
