multisite shopping cart problem

Posted by hafiz - 2012/09/24 04:39

_____

hello.

i have a problem here.

actually,im using a multisite and virtuemart working with joomla 2.5.
this component working perfectly.
but there's have a problem when i trying to add product to shopping cart.
when i'm add a product to shopping cart using default multisite, and the slave site also update a cart.
why this is could happen.
how to solve it.

thanks.

_____

Can you describe the problem.
You just say a problem without detailled description.

Do you have an error message ?
If yes, which one ?
