Error stream_set_blocking(): Argument #1 ($stream)

Posted by erickhm - 2023/03/02 19:06

When I want to access the multisite administration panel, I get the following error:

stream_set_blocking(): Argument #1 ($stream) must be of type resource, bool given

Does anyone have a solution to this error?

Joomla version: 3.10.11
PHP Version: 8.1.1
JMS multisite version: 1.3.85
