JMS, multisite for joomla - Joomla Multiple Sites and user sharing Generated: 14 December, 2025, 15:01

Plugin Include Multisite Content & Synchronize Posted by epanda - 2010/03/03 11:31
It would be great, if we could place a article of the site A in a article in the Site B.
Another great feature would be to synchronize content of a site with another site (just a categorie, several categories, just a section, several sections).
