Check for Updates - Unable to Decompress Data

Posted by slboone - 2009/12/10 03:12

Hey Edwin, im trying once again to Check for Updates and I still receive the Unable to Decompress Data. I see that I am one revision behind again and wanted to stay updated. How do I check for updates and avoid this error?

Thanks,

Sondra

Dear Sondra,

If you have problem to get the latest patch definition, you have the alternate solution to get the latest version of JMS that include the latest patch.
See FAQ for the procedure.
http://www.jms2win.com/faq#sec-122

The latest version in JMS 1.1.x is JMS 1.1.24
